DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 25-34, the subject matter is unclear as claimed as “An isolated peptide”. The amended claims are drawn to compounds, wherein the peptides of SEQ ID NOS: 1-2 are attached to X01 and X12, rather than merely “isolated peptides”. In order to clarify the invention, it is suggested that claim 25 be amended to delete reference to “an isolated peptide” or “peptide”, respectively, and be amended to “a compound consisting of X01-Thr Gly ...” (or like language). As drafted, and discussed in Applicant’s response, this will limit the claims to the peptides of SEQ ID NOS: 1-2, yet still leave X01 and X12 open as the various non-peptide compounds listed, that are attached to the peptides, respectively. Additionally, the remainder of the claims must be amended to delete reference to “peptide” and replace with “compound”.

In claim 25, the paragraph beginning “with the proviso...” through the end of the claim is unclear. This language appears to change the subject matter from being limited to compounds consisting of SEQ ID NOS: 1-2, to being compounds consisting of an innumerable number of peptides having the length of SEQ ID NOS: 1-2, yet optionally changing *any* residue therein to non-conservative, different amino acids, of Groups I-IV. It is noted that if any amino acid residue of SEQ ID NOS: 1-2 were changed, than the invention would no longer be drawn to a

Art Unit: 1654

compound consisting of either SEQ ID NOS: 1 or 2. As indicated in the previous action, the claims have only been searched and examined as to SEQ ID NOS: 1-2. Therefore, it is suggested that the paragraph beginning "with the proviso..." through the end of the claim be deleted.

Allowable Subject Matter

Based on a search of the prior art of record, the compounds consisting of SEQ ID NOS: 1-2 were not found to be reasonably taught or suggested by the prior art of record. Accordingly, appropriately amending the claims as discussed in the 35 U.S.C. § 112 rejection above would place the claims in condition for allowance.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
